

Quadra - Leader in Space, Energy and Time Efficiency

The Quadra has the smallest under counter unit footprint of its kind. With space limited the quadra is focused on space saving.

Key Features:

- Unique energy reclaim system which makes a substantial energy saving
 - Standby mode
- Dispenses more cups instantly than any tap of its kind
- Integrated safety switch after 8 seconds of non-use
- Electronic control of boiling water delivery, flow is momentarily slowed as the water exits the tap, eliminating splashing as it enters the cup.

Options:

- 12 colour options
- Remote/touch/tap/button controlled
 - Models: Quadra compact/
Quadra 440/Quadra 460
